Field Of Expertise:
Risk Management

Sander van Boom
CIO
Field Of Expertise:
Bioinformatics & Legal
informatics Architect

4MedBox

The vision

Safe, feasible and affordable healthcare system, where control and ownership over biomedical data is returned to the person.
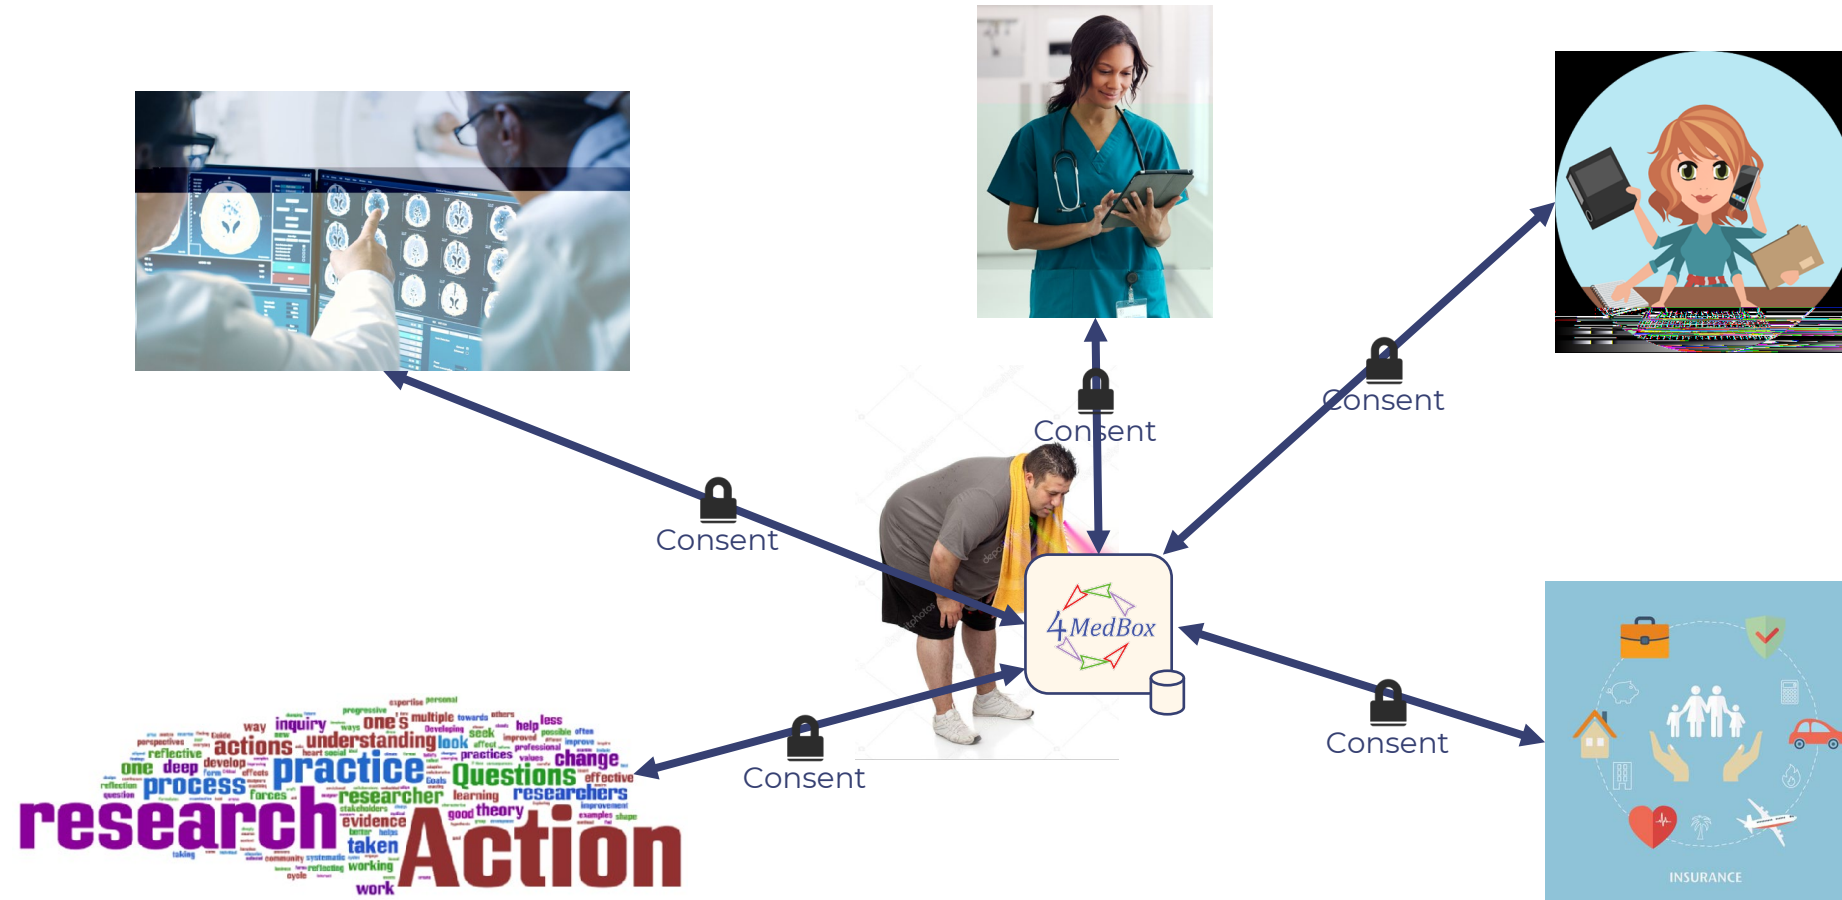

The solution

- Health, lifestyle and well-being focussed

- Decision Support System for health, lifestyle and well-being professionals and the person

- (Medical) Devices can integrate to provide data to the person

- (Medical) Service providers can connect and provide services based on the data of the person
